Math Class -- Netbook Version

Math Class 1 Record Sheet: A printable file for keeping records of your students' progress as they use the programs in Math Class 1.

Math Class 2 Record Sheet: A printable file for keeping records of your students' progress as they use the programs in Math Class 2.

Levels: To advance a level, the student must have completed at least 4 problems in the current level, and have a score of 85% or better.

Math Class 1: Math1 icon:

- Number Concepts
 - Number Line - Whole Numbers – 4 levels
 - Greater than and Less than – 4 levels
 - Place Value (Value of a Digit) – 5 levels
 - Rounding Whole Numbers – 4 levels
 - Lines, Angles, and Shapes – 3 levels
 - Mental Math – 5 levels
 - Reading Graphs – 3 levels
- Addition
 - Adding on the Number Line – 4 levels
 - Addition Facts – 4 levels
 - Whole Number Addition (No Renaming) – 4 levels
 - Whole Number Addition – 4 levels
 - Column Addition – 4 levels
 - Checking Addition – 3 levels
 - Estimating Sums – 5 levels
 - Problem Solving (Addition) – 4 levels
- Subtraction
 - Subtracting on the Number Line – 4 levels
 - Subtraction Facts – 4 levels
 - Subtraction (no Renaming) – 4 levels
 - Subtraction Problems – 4 levels
 - Subtraction with Zeros – 4 levels

- Checking Subtraction Problems – 3 levels
- Estimating Differences – 4 levels
- Problem Solving (Subtraction) – 3 levels
- Multiplication
 - Multiplication Facts – 4 levels
 - Single Digit Multipliers – 5 levels
 - Double Digit Multipliers – 5 levels
 - Multiplying by Powers of 10 – 4 levels
 - Estimating Products – 4 levels
 - Checking Multiplication – 3 levels
 - Problem Solving (Multiplication) – 3 levels
 - Problem Solving (Add, Subtract and Multiply) – 3 levels
- Whole Number Division
 - Division Facts – 4 levels
 - Short Division – no Remainders – 4 levels
 - Short Division – 4 levels
 - Long Division – no Remainders – 4 levels
 - Long Divisors – 4 levels
 - Relationships of Division – 3 levels
 - Problem Solving – Division – 3 levels
 - Problem Solving – All Operations – 3 levels

Math Class 2: Math2 icon:

- Number Concepts
 - Rounding Decimals – 4 levels
 - Statistics – Range, Median, and Mode – 4 levels
 - Statistics – Averages – 3 levels
 - Prime Factors – 5 levels
 - Greatest Common Factor – 4 levels
 - Lowest Common Multiple – 4 levels
 - Reading Tables – 3 levels
 - Reading Graphs – 3 levels

- Fraction Concepts
 - Numerator and Denominator – 4 levels
 - Simplify Fractions – 5 levels
 - Equivalent Fractions – 5 levels
 - Converting Improper Fractions to Mixed Numbers – 5 levels
 - Converting Mixed Numbers to Improper Fractions – 5 levels
 - Decimal to Percent Conversions – 4 levels
 - Ratio and Proportion – 5 levels
 - Problem Solving – Fractions – 3 levels
- Addition and Subtraction of Fractions
 - Add Like Fractions – 4 levels
 - Subtract Like Fractions – 4 levels
 - Add Decimal Numbers – 5 levels
 - Subtract Decimal Numbers – 5 levels
 - Add Unlike Fractions – 5 levels
 - Subtract Unlike Fractions – 5 levels
 - Problem Solving – 4 levels
- Multiplying and Dividing Fractions
 - Multiply Fractions – 4 levels
 - Divide Fractions – 4 levels
 - Multiply Whole Numbers by Fractions – 4 levels
 - Divide Whole Numbers by Fractions – 4 levels
 - Multiply Decimal Numbers – 3 levels
 - Divide Decimal Numbers by Whole Numbers – 4 levels
 - Divide Decimal Numbers – 4 levels
- Geometry
 - Perimeter of Rectangles – 4 levels
 - Perimeter of Triangles – 4 levels
 - Area of Rectangles – 4 levels
 - Area of Triangles – 4 levels
 - Circumference of Circles – 4 levels
 - Area of Circles – 4 levels
 - Volume of Rectangular Prisms – 4 levels
 - Probability – 3 levels
