Phonics and Spelling Programs -- Netbook Version

Phonics and Spelling Record Sheet: A printable file for keeping records of your students' progress as they use the Phonics and Spelling Programs.

Program Design: In each of the programs, the student is given a grid with 15 boxes filled with words. S/he is asked to find all of a specific type. There are 8 correct boxes in each grid. If a student's choice is incorrect, the box is "framed" in gray, and feedback is given regarding his/her choice.

If the student's choice is correct, the box is "framed" in blue and the student is given a "reward." When all 8 correct boxes are chosen, the program moves on to another question.

The program ends when more than 60 choices have been made and the current question is completed.

Phonics 1 topics: Phonics 1 icon:

- Short Vowels
- Long Vowels
- Long a Patterns
- Long e Patterns
- Long i Patterns
- Long o Patterns
- Long u Patterns
